

Who Are We?

Summer 2007, Douaine Anderson founded SLAM! Ltd, as a collective of highly qualified learning achievement and engagement mentors. Our mentors share a variety of personal and professional skills in which are used to inspire, encourage and enrich today's youth.

We at SLAM! utilise resources of our Professional Athletes, Community Sports Coaches, Sports/Community Role Models and Life Skills Tutors to provide a unique service and experience for young people across the West Midlands. Led by our director, we work towards bettering young peoples lives by exposing them to personal development through the sport of basketball. Our fun and challenging programs merge education and sport to develop the lives of our participants, with the aim to equip them with lifelong skills to continue to 'enjoy and achieve'.
